BACHELOR OF SCIENCE

Civil Engineering Technology

The B.S. in Civil Engineering Technology (CET) prepares professionals for infrastructure and construction. Rooted in nationally recognized standards of excellence, CET emphasizes applying and practicing civil engineering principles to solve workplace problems. Our graduates are equipped with the technical expertise and management skills to excel in planning, designing, construction and maintenance of critical infrastructure systems.

PROGRAM HIGHLIGHTS

- ODU's online CET program is accredited by the Engineering Technology Accreditation Commission (ETAC) of ABET
- The program focuses on the development of communication and entrepreneurial skills
- Connect with expert faculty mentors
- Choose senior electives in construction management, structural design or site development
- Credit may be granted for work experience, military training, or internships
- Earn a minor in Engineering Management with the option to pursue a master's in Engineering Management
- Graduates are eligible to take the Fundamentals of Engineering (FE) exam and the Professional Engineering (PE) exam through the National Council of Examiners for Engineering and Surveying (NCEES)

ODU Global
OLD DOMINION UNIVERSITY

Why ODUGlobal?

Affordable, Competitive Tuition
ODU is an affordable public university offering competitive tuition rates for online learners.

Coaching and Support
Our staff partner with students from the first time they contact us all the way through graduation, offering resources and support at every step. More than 20,000 students have completed their education through ODUGlobal.

Nationally Recognized Faculty
Award-winning faculty guide students toward successfully earning their degree online at an R1 elite research university.

Pioneering Leader
ODU has advanced distance learning for nearly 40 years. Our culture of innovation continues as we embrace new technologies and lead the way in establishing best practices.
